NOTICE

MIGRATE

Migrate...

Or is it...

Immigrate

What is the difference?

I mean should we all immigrate somewhere else?

Somewhere we have never been before

Should all those that have immigrated to the Americas over the past 500 years be sent home?

Where is home?

Or...

Are we all immigrants just waiting to be sent home to...

I was not born in this country

Should I be sent back to the country of my birth, even though my parents were only there doing the work of British Cultural Imperialism?

I think we should all be an immigrant and we should all be sent back home once in our life before we migrate to the after life
